-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --  
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The new matter 112 first paragraph rejection of claims 1-10 is hereby withdrawn due to the amendment filed 4/25/05.

The 112 first paragraph rejection of claims 1-10 is maintained for the same reason set forth in the previous office action.

The 103 rejection of claims 1-10 over the Mody reference is hereby withdrawn because applicant's argument is found to be persuasive.

In the response filed 4/25/05, applicant traverses the 112 first paragraph rejection. Applicant argues that applicant has defined the terms of filler fat and coating fat consistent with the meanings given them by those skilled in the art. This argument is not persuasive. The question is not whether the terms have been defined. While applicant defines the terms, applicant does not specify the fats that are exemplary of the filler fat and coating fat. Applicant has not submitted evidence to show that the terms " filler fat" and " coating fat" readily suggests to one skilled in the art the fat to use. For example, does one use butter, margarine, shortening, vegetable fat or what for the filler fat and what ingredient can one use for the coating fat? The reference and incorporation of reference to patent no. 5,378,490 is not understood because that patent is directed to a low calorie triglyceride and does not discuss or give examples of filler fat and coating fat. The description is inadequate in that it does not give examples of ingredients that can be used to satisfy the requirement of filler fat and coating fat.

Applicant's arguments filed 4/25/05 have been fully considered but they are not persuasive.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
